

AMAL BIJU

Full Stack Developer

amalbiju.dev@gmail.com | +91 6282218702 | Bangalore, India | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

As a dedicated full-stack developer with 3+ years of experience, I have been an integral part of Sapiens' Digital R&D department, specializing in the development of Insurtech web applications. Skilled in using **React**, **TypeScript**, **Next.js**, and **JavaScript** to develop user interface components and implement front-end application logic. Experience in Agile methodology and software development life cycle.

AREAS OF EXPERTISE

React • Nextjs • TypeScript • HTML • CSS • Javascript • Git • SCSS • Material-UI •
Styled Components • Unit Testing(Jest) • Storybook • Nodejs • Express • MongoDB

PROFESSIONAL EXPERIENCE

Sapiens Technologies

Jul 2023 – present | Bangalore, India

Developer

- Developed **Front-end solutions** using **React**, **Next.js**, and **Typescript** to build responsive, interactive UIs.
- Developed a versatile and reusable **UI component library** that significantly streamlined the development process for customer portals and agent portals, improving overall project efficiency and consistency across projects.
- Enhanced SEO and performance with **Server-Side Rendering (SSR)** using Next.js, leading to faster load times and increased user engagement.
- Implemented **Storybook** and **styled-components** to maintain consistent design and UI components across projects, resulting in a cohesive and professional user experience.

Sapiens Technologies

Apr 2021 – Jul 2023 | Bangalore, India

Associate Developer

- Working as a part of the Sapiens **Digital R&D** team at Sapiens Technologies
- Built reusable, modular **React** components and **Node.js** back-end services, enabling seamless API integration and smooth data flows.
- Skilled in debugging and troubleshooting React, TypeScript, and JavaScript code.
- Contributed to **unit testing** using **Jest**, ensuring high test coverage and reliability across applications.
- Proficient in writing clean and reusable code using **TypeScript** and **ES6** standards.

Swati Airport Services Pvt Ltd

May 2019 – Oct 2019 | Bangalore, India

Trainee, Control Engineer

- Monitored and managed the operation of **Baggage Handling Systems** at Bangalore International Airport, ensuring minimal downtime and optimal efficiency.
